

“Computer ‘Geek’ Reveals How You Can Watch Over 3,000 World-Wide Channels (Many In HDTV) On Your Computer...And TV... Without Paying Cable Or Satellite Bills!”

You can easily hook up all your computers... desktops and laptops...and...your television too! Plus... you can take these channels with you anywhere in the world you travel!

By JOHN PATTERSON
Technology Writer

If you want access to thousands of channels on your computer and TV... in just a few minutes from now...without paying for cable or satellite service...this will be the most exciting message you will ever read!

Here's Why:

There's a man from China that cable companies absolutely hate. Why do they hate him so much? That's because he discovered a secret 'loophole' that lets anyone with an internet connection get access to thousands of quality channels from all over the world... without cable or satellite service! And the first thing you should know is...

It's 100% Legal!

That's right. Despite that cable companies hate him so much, they can't stop him because what he does is 100% legal. The man's name is Mike Ling. He's from Beijing in China, though he now lives in the U.S. His telephone number is 323-446-7123 and, you can visit him at: 8721 Santa Monica Boulevard in Los Angeles, CA. That's right across the street from the Public Library and two blocks south of the Hollywood Police Station.

You see, Mike and a group of technology experts spent over 5 years developing a simple, easy-to-use computer program that legally 'steals' thousands of television channels from all over the world and sends them to your computer through the internet! Thousands of people are already using this program...many of whom are abandoning their no longer needed cable and satellite services!

With this program you can now watch all of your favorite shows and programs right from your computer! In fact, you now have access to over 3,000 television channels from the U.S. and around the world! And this means you can watch just about anything you want! This includes:

Movies: Over 60 channels of action... comedy... romance... and just about any genre you like! And foreign movies as well!

Sports: Over 70 channels showing baseball, football, soccer, basketball, tennis, and racing! Channels like ESPN News, EuroSports TV, GameSports TV, WHL TV, Fox Network, and Sport Star. There are channels for just about any sport you can think of, even sporting events usually available only on pay-per-view... like ultimate fighting, martial arts, wrestling, and boxing!

Music: The hottest music videos from all over the world! Some channels you should check out are Deejay TV, Festival TV, Ministry Of Sound, Party TV, and Club TV! And on top of that, you also have access to over 1,500 radio stations from around the world!

Premium Channels: Over 120 channels, including Comedy Central, MTV Overdrive, Euro TV, Discovery Channel, Broadway Network, Game Network, MovieStat Network, Adult Swim, National Geographic, Food Network, Rapture TV, Vintage Cartoons, Adult Zone, Show TV...and even HDTV (high definition television) channels! These are channels you may be paying a lot of money for right now...but no longer have to!

Kids Channels: Countless channels for your kids that show cartoons and movies all day long the whole family can enjoy!

Educational: Some of the channels you should check out are Research TV, The Academic Channel, Global Country, Strawberry TV and The Baby Channel!

Religious: There's a lot of programming here from channels like The Church Channel, Hope TV, Islam Channel, Kabbalah, Word Of God, and Vatican TV!

Shopping: You can shop from all around the world...right from your couch! Channels like Gems TV, Jewelry TV, Price-Drop TV, QVC, and Speed Auction!

News, Weather And Politics: Hundreds of channels with the latest news, weather and politics from all over the country and the world... live and uncensored! There are countless channels of ABC, NBC, CBS FOX and PBS affiliates all over the country and the world. This means if you're from Texas but are visiting California, you can still tune in to your local favorite news station! And you'll be more up to date than anyone you know... especially because...

You Can Watch Channels That You Can't Get From Your Cable Or Satellite Provider...Even If...You Paid Them!

That's right. Many people don't know the extent of this but, what you can watch on TV, cable, or satellite is very regulated and controlled by our government as well as foreign governments. There is a lot they don't want you to see and, many things they don't want you to ever know about. However, since this program picks up channels through the internet and not through regular TV, cable or satellite, you can now legally get access to these secret channels that our government doesn't want us to see!

Enjoy These TV Shows On Your Computer!		
Prison Break	Heroes	One Tree Hill
Smallville	The Girls Next Door	Lost
Gilmore Girls	24	House
Grey's Anatomy	American Idol	Desperate Housewives
Veronica Mars	Beauty and the Geek	The O.C.
Scrubs 2001	Family Guy	NCIS 2003

Dancing With The Stars	Top Chef	The X-Files
The Lost room	The King Of Queens	Ghost Whisperer
Survivor	Futurama	Two And A Half Men
Beverly Hills 90210	The Class	What I Like About You

For Example, You Can Watch...

- Egypt State Channel that shows programming directly from the Egyptian Government!

- Venezuela TV, which is controlled by Hugo Chavez!

- Cubavision from Cuba!

- HTV from Vietnam!

- Aljazeera TV from Iran which shows the Iraq war live and uncensored!

And many more channels that you otherwise can't get in the United States!

(Many of these channels are from countries the U.S. is not very friendly with. However, you will have access to these channels and watching them will truly open your eyes to what's REALLY going on in the world. Trust me... you'll know more about the 'truth' than almost anyone else you know!)

There are also many other channels you'll be able to watch that aren't offered in the U.S...but really should be!

For example, as I'm writing this I am watching a killer soccer match on Goal From Belgium... which shows the best soccer matches in the world, 24 hours a day! If you are a sports fan, you will really appreciate all the amazing channels like this one!

You can also watch TV in English, Spanish, German, Arabic, French, Italian, Russian, Dutch, and many other languages. In fact...

You Can Get Channels From 78 Countries Around The World!

And... you can watch these channels from your computer in any of these countries too!

If you have friends and relatives that speak a foreign language, they would have a blast with this!

Especially anyone that was born in a foreign country...they could now once again watch their favorite shows from their home town that they grew up with...shows they love and miss so much!

And if you're like me, you'll have a great time discovering interesting and bizarre shows you never new existed!

Just imagine... with so many interesting channels...you will be able to entertain yourself, your friends and your family...forever!

And guess what else? You'll never again have to miss your favorite show or sports event because.... you can record anything you want! You can even set a time and day you want a

certain program recorded and it will record automatically...kind of like Tivo does it!

And Remember, You Don't Need Any Cable Or Satellite Service!

Here is a shocking and true story: A long time ago, Mike Ling began to get suspicious of his cable company. They were charging him higher and higher prices every year. For quite some time, he felt he was being taken advantage of. Well, one day Mike found out he was wrong. Instead, he discovered... EVERYONE with cable service is being taken advantage of!

He read about this in a special report by two of America's leading consumer groups (Consumer Federation Of America and Consumer's Union, the publisher of Consumer Reports Magazine). The report said straight out that: "the primary reason that cable rates have skyrocketed in recent years is that cable companies are taking advantage of their monopoly power."

In short, this means that they charge high prices, month after month, simply because they can!

Well, Mike didn't like this at all. That's why he hired a team of experts and spent 5 years developing an alternative... without the high prices and high subscription fees! In fact, with this program...

You Can Save Up To \$500, \$1000, And Even More Per Year On Regular Cable And Satellite Bills!

The way this computer program works is it basically communicates directly with the servers of TV stations from all around the world. Cable and Satellite are actually 'middle-men' between you and these servers... but with this computer program... the 'middle-men' are no longer needed! This also means you can watch many channels that the 'middle-men' don't give you access to!

So you get more great shows, live and uncensored news, and international sports!

Think about the benefits here... you can save a lot of money... you can watch almost any channel you want...watch them on your computer AND your TV... take the channels with you anywhere you travel... record the shows you want...and you even get channels that cable and satellite don't offer!

It's Easy To Use!

You will notice that this program is simple and easy to use. The buttons are big, easy to see, and easy to navigate. No computer knowledge is required to use this program.

Truth is... it had to be designed in an easy to use way. There are thousands of channels to choose from that could take you months if you were to look at them all! Last time I counted, there were 3,003 TV channels, 1,658 Radio channels and...

New Channels Are Added Almost Every Day!

That's why this program is designed to make it easy to search for exactly what you want to watch.

With the click of your mouse you choose the country you want to watch TV from. You can also choose a Genre - be it movies, music, culture, education, HDTV, News, politics, religion, shopping, sports, weather, or other categories you can choose from. Whatever you choose, the listings are in easy-to-read alphabetical order. All you do is click on the channel you want to watch and... it plays!

It's also really easy and fast to switch from one channel to another.

In fact, it takes between 1 to 3 seconds for any channel to load, even international channels!

You'll also notice a play and stop button, a button to start and stop recording a show, a button to schedule recordings, a button for radio stations, and a little bar you can scroll to change the volume. All of these buttons are easy to find and easy to use.

Plus, you get a really crisp and crystal-clear image! There's even a button that let's you watch shows in full screen...and...the image quality is really amazing...even when watching channels on my 30-inch LCD monitor! And don't forget, there are a number of channels that are in HDTV (high definition television)! You must check these out!

Here Is What Others Say About This Program:

"I love being informed and I love watching international news. Only after purchasing your service I began realizing how little I knew. Normal people think that everything newsworthy is found on CNN or Fox. How wrong they are! Thank you for waking me up from my "normality"."

*Adrian Gallagher,
Palm Harbor, Florida*

Immediately check your email for the subject line 'Your copy of TV On PC Elite Version 2.1.' That's the name of the program and, this new (easier to use) version was just released. It's quick and easy to install and the receptionist can assist you with it. Within minutes you'll be watching TV on your computer!

Enjoy Your First Month Free!

You got to try this out for yourself to see how incredible it really is. That's why the program is being delivered to you free with a one month-free trial!

Many people say they would pay as much as \$199.00 a month for such TV service. The good news is, your first month is free and, if you want to keep getting the service after that, you will just be billed a very-low monthly fee of only \$49.95. And you won't be billed until your second month. Also, you can cancel anytime, for any reason or no

"I'm living in the States as an emigrant for about 16 years now. I'm an engineer and I'm living the American dream. Still, from time to time, I like hearing my mother tongue and see what happens in my home country. Thanks to you now I can." -

*Ioan Melinte,
Saddlebrook, New Jersey*

"I was spending a fortune on satellite fees, because I am truly a television addict. Now I'm using you and let me say just one thing: I now have a lot more spending money!" -

*Melvin Bishop,
Hemphill, Texas*

"It's a miracle that a service like this even exists...You're the very first company that lets me watch just about anything legally." -

*Jason Wolfowitz,
Whitestone, New York*

"It's incredible what you can see on 3000 channels. I initially stuck to the ones I knew, but once you begin exploring, you cannot stop. The more distant the country, the stranger the television channels. You wouldn't believe how many crazy stories are out there." -

*Johnny Meyer, Ashmore,
Queensland, Australia*

There are countless more testimonials like these. Almost everyone who uses this program finds it to be so entertaining, they can't stop using it! And guess what else?

You Are Only 5 Minutes Away From Watching These 3,000+ Channels On Your Own Computer Screen!

That's right. When you call today to request your copy of this program, a friendly receptionist will ask for your email address and email the program to you right away, while you're still on the phone with her!

reason at all, by making a simple phone call. You can cancel anytime during your first month too and you'll never have been charged a red cent. That's a guarantee.

Remember, you are receiving the program free (in your email in just a few moments) with a one-month free trial. So you have nothing to lose, but you certainly have a lot of entertainment to gain!

You're Only Moments Away From:

- Over 3,000 world-wide channels from 78 countries, showing movies, sports, news and more... 24/7!

- Watching your favorite shows on your all your computers AND your TV!

- Channels you can't get any other place in the U.S.A!

- The ability to record anything you want!

- The luxury of traveling with these channels anywhere in the world with you!

- Saving thousands of dollars over many years on cable and satellite bills!

- And much, much more!

It's easy to redeem your free-trial. All you do is call (toll-free):

1800-000-0000 Ext 000

The friendly receptionist will ask your name, credit card details and email address and you'll be watching unlimited TV in a few minutes from now. Call now, today, because this one-month free trial offer is a special promotion and only guaranteed for another 18 hours.

By the way, demand for this free-trial has been enormous so, you may have to call two or three times before getting through on the phone. To reward your patience, anyone who calls over the next 18 hours will get a bonus gift.
